
A medium shot of Sheldon Cooper from the TV show Big Bang Theory. He is wearing his signature light blue t-shirt with a purple graphic. He has a wide-eyed, enthusiastic expression on his face, looking slightly to the left. The background is a dimly lit hallway with a fire alarm pull station visible on the wall to the left.

Wearables

A black and white photograph of a man lying down, wearing a custom-built eye-tracking device. The device consists of a pair of glasses with a complex mechanical assembly mounted on the bridge of the nose. This assembly includes a small camera and various sensors. Wires are connected to the device, some running along the temples of the glasses and others extending from the side of the head. The man is looking towards the left of the frame.

Different Approaches

- Web App (via Browser)
- Hybrid (WebView)
 - Phone Gap
- Cross-Compiler
 - GWT (Java to JavaScript)
 - Script# (C# to JavaScript)
- Cross-Platform runtime
 - Adobe Flash/AIR
 - Mono
- Native App
 - Sandbox/System access

Different Approaches: Windows 8

Different Approaches: Windows 8

- **Metro Design Language** is used in various devices (Zune Player, Zune Software, Windows Phone, Xbox, Windows 8)
 - Modern Design - Bauhaus
 - International Typographic Style – Swiss Design
 - Motion Design - Cinematography
- Metro style design
- Fast and fluid
- Snap and scale beautifully
- Use the right contracts
- Invest in a great Tile
- Feel connected & alive
- Roam to the cloud
- Embrace Metro principles

Which Approach to choose?

Repetition and Fashion

HTML 1 (1991)
LiveScript/JavaScript (1995)

About me

Sascha is a **Craftsman for Pervasive Computing, Rich Applications and Mobile Apps in all flavors** with focus on the Microsoft .Net Continuum (incl. Silverlight and Windows Phone 7), Adobe Flash Platform, JavaScript and HTML5. He also works as **consultant, trainer and author** on a freelance basis and contributes articles to a number of magazines. His books are best selling publications. He has been giving lectures at conferences like Flash on the Beach and Flashforward for several few years now. Sascha is also the founder of the leading German Adobe User Group flashforum.de with **more than 100,000 members**.

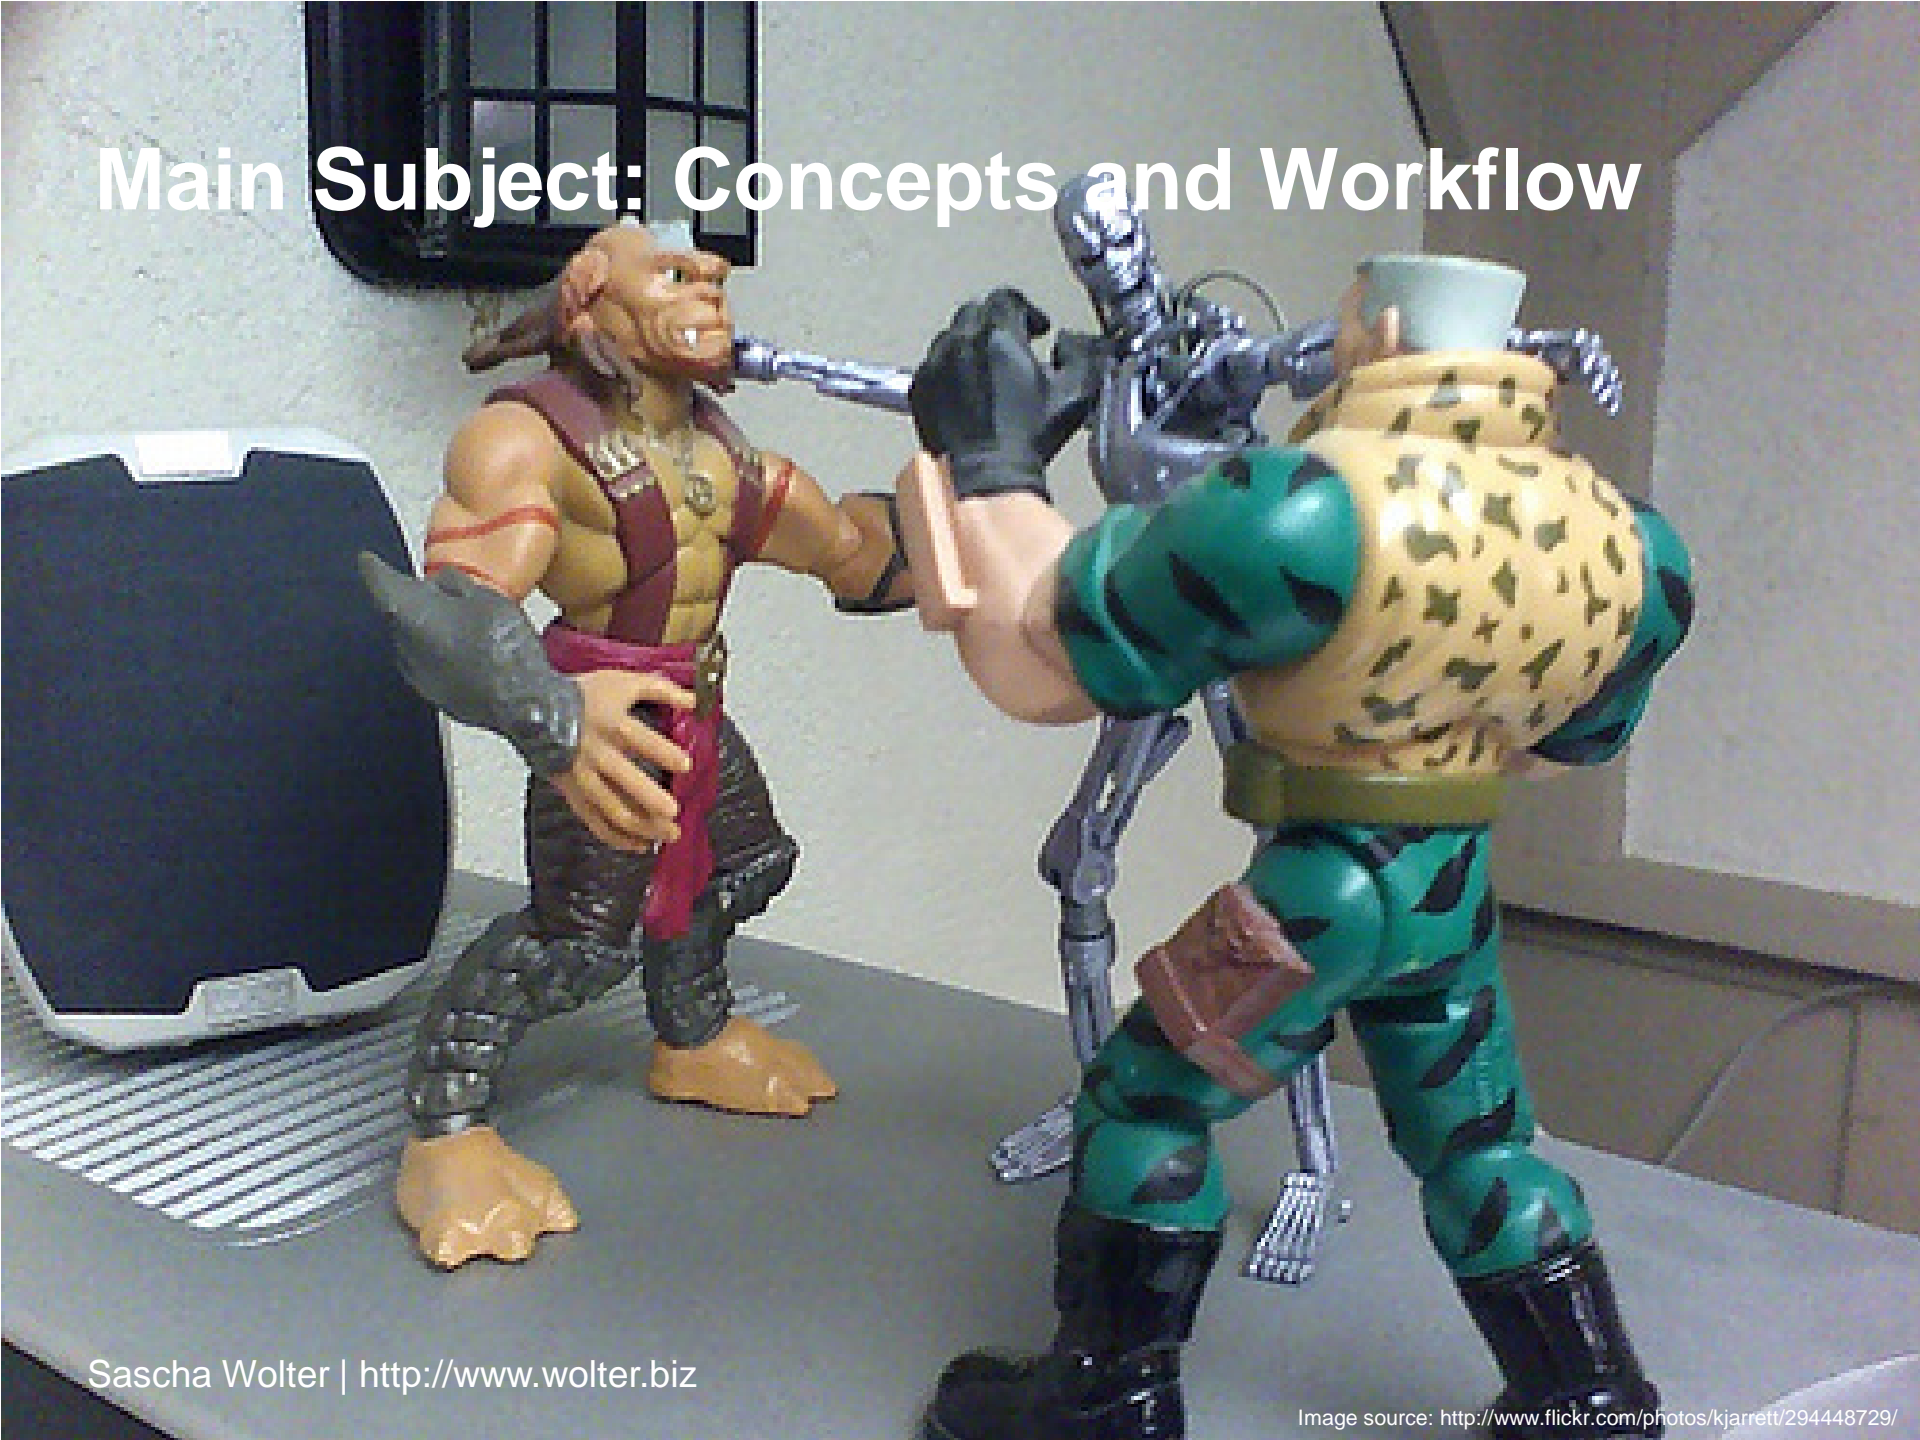

LEGO-based Design Process

1. Choose a problem: Build a LEGO ship.
2. Develop a vision: What sort of ship will it be? How big will it be? What will it carry?
3. Build: Build the framework of the ship.
4. Fill in the details: Design and build the details of the ship, ramps, doors, etc.
5. Test: Drive the cars around the ship and sail the ship while exploring the house.
6. Refine: Take parts of the ship apart and make them better.
7. Learn: Take what you learned from building this ship and use it to build a better one next time.

Main Subject: Concepts and Workflow

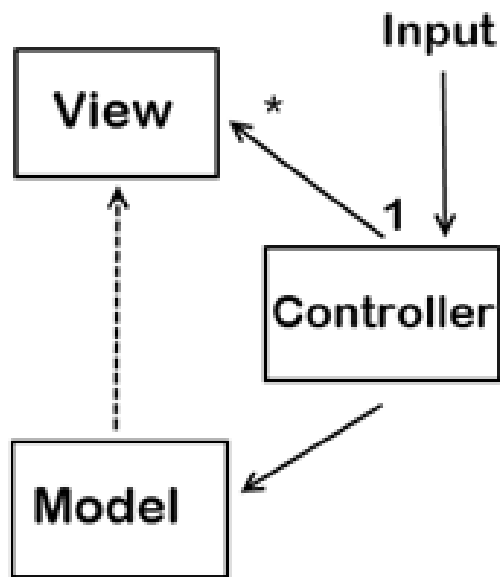

Separation of Concerns

- Styling
- Skinning
- Templating
- Design vs Code
- Visual vs Logic

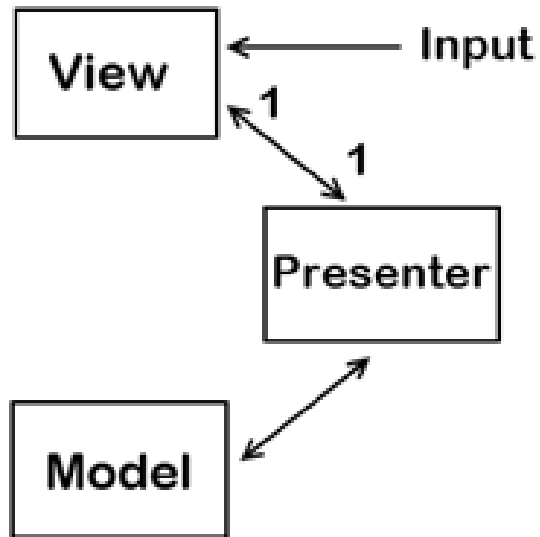

Andy Warhol Monroe Style

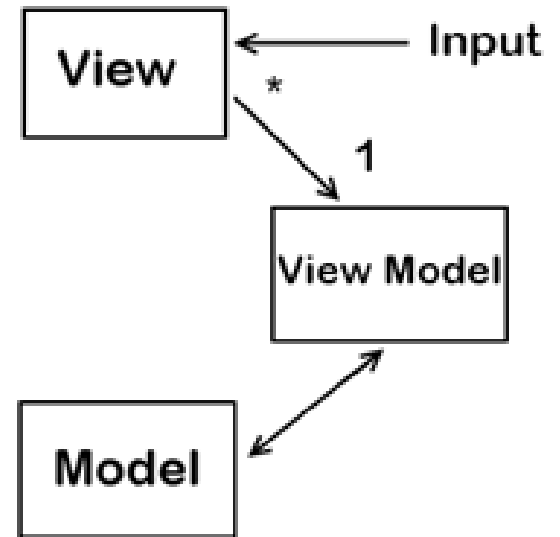

Pattern
